• Modern design

Nuru has clear design reference to the classic candlestick holder. The design has been updated with modern LED technology and a beautiful opalized shade to soften the light. Charging the battery is done with a mini-USB. The result is an elegant, practical and portable table lamp for indoor and outdoor use. The atmosphere can be adapted to any occasion with the lamp's three different temperature settings for the light. Designed by Bønnelycke mdd

The beautiful combination of anodised space grey and opal white glass makes Nuru an elegant and decorative table lamp that contributes to atmospheric lighting in every home.
