ARKÉ

ARKÉ and ARKÉ METAL

Two souls that match the style of every habitat.

From the classic, minimalist white version that complements any space, to appealing, carefully selected material-driven versions. Arké expresses the full vibrancy of modern living, for a perfectly harmonious effect.

White or anthracite grey.

For a solid colour or two-tone look.

These two timeless colours suit any room, in harmony with the style of the interiors, with a contemporary charm and infinite combination possibilities.

Metal finish.

Suitable for warm hues and natural spaces.

With its strong identity, Metal offers original textural combinations that perfectly interpret and enhance the style of interiors characterised by warm, natural colours.

Materials and finishing.

Every space has its own cover plate.

Selected durable materials, innovative production processes and the attention to finishes typical of Italian-made goods: a perfect combination, offering a strikingly attractive product that enhances every room with its countless customised versions.

Arké reveals
a new side to its
contemporary **spirit.**

THE DECISION TO INSTALL A NEW KIND OF ENERGY.

Arké presents all the latest trends in the energy industry: contemporary design; ergonomic, resistant, hard-wearing buttons; exceptional reliability and easy installation. All made in Italy. For those with an eye on the future.

> Two versions with an unmistakeable profile.

Two designs inspired by the principle of simplicity.

Arké Classic: regular, with sharp corners and a linear profile. **Arké Round:** curved, with soft corners and a slightly convex form. To complement contemporary elegance and define a new style of energy: dynamic, versatile and easy to match. Large surfaces enhance the geometric forms and the materials, all in a perfectly balanced combination of simplicity and attention to detail.

Classic

Round

> Grey, white and Metal to enhance the details and identity of every environment.

Three different versions: the natural elegance of anthracite grey, the brightness of white and the strong, innovative personality of Metal.

> Materials, finishes and colours.

Unique manufacturing processes and the strong focus on innovation and finishes intrinsic to all fine Italian production. The materials used to make Arké reflect these principles, meeting strict criteria of resistance, eco-friendly manufacturing, dual component extrusion with an optimum aesthetic quality and wearproof finishes. They come in a wide range of different colours, perfect for enhancing all kinds of spaces.

EIKON CHROME

EIKON EVO

EIKON TACTIL

Eikon: four designs, the same universe.

Four lines of cover plates with different designs, dimensions and finishes, all designed for superlative energy management. Tactil, Evo, Chrome, and from today also Eikon Exé, which with its essential design completes a universe where purity and elegance, technology and cutting-edge functionality make a perfect match.

EIKON EXÉ

Material and form

EIKON

Eikon Exé

> The essence of material.

Fine natural materials provide an unmistakable textured effect, defining the identity and personality of every finish.

Eikon Exé

> The essence of form.

Pure, minimal shapes underline the Eikon Exé look. Squared corners and striking silhouettes for a cover plate that blends in seamlessly with any environment. Stylish details, 100% made in Italy.

EIKON

Eikon Exé

> Materials and finishes.

The cover plates are made using materials resulting from a meticulous selection process, favouring the finest, natural type. The high quality for the 27 finishes creates a different, original soul each time, offering a full variety of solutions suitable for every environment.

The Glass

EIKON

Eikon Tactil

> The future is now.

Eikon Tactil is beauty and intelligence: it wears a precious material - crystal -, in 4 colour variants - diamond white, diamond black, pearl grey and water - and has advanced solutions, including the touch function and the proximity sensor which brings it to life as soon as you come near the device, one step ahead of your movements.

Eikon Evo

> Luxury is unveiled.

A veritable evolution in style and technology. Forms designed to be noticed, sizes which delicately stand out on walls, ultra-thin profiles, unique colours and combinations. Eikon Evo cover plates are available in eight materials that capture the latest interior design trends and bring out the best in any living style.

EIKON

Eikon Chrome

> It's all in the details.

Two forms, one rigorous and one curved, and the presence of details that take centre stage, like the frame surrounding the buttons and controls, which stand out for their understated elegance. Buttons in three colour variants: anthracite grey, white, Next silver and cover plates in as many materials that interpret your every wish with extraordinary precision.

WITH CHROME FRAME

Chrome is also available in the Total Look version:
buttons and devices are perfectly coordinated with the
colour of the cover plates and frames, defining a unique
style.

TOTAL LOOK

EIKON

Eikon Flat

> The essence of minimalism.

The quintessence of purity and linearity. Planar and square-shaped controls give a pleasant flush-mounting effect, highlighted by the chromatic uniformity between controls and cover plates, in accordance with current stylistic canons.

Eikon Vintage

> The modern essence of retro.

Fascinating lines of the past reinterpreted in a modern way providing an exclusive and a bit retro style to all spaces. The perfect chromatic coordination between controls and cover results in a captivating total look effect.

EIKON VINTAGE

PLANA

ESSENTIAL, WITH VERVE.

Providing energy, with maximum linearity: the formal rigour of Plana is ideal for naturally enhancing any environment, with the combined use of intelligent and intuitive technologies. A modern and essential design with a strong character revealed in a versatile range of colours and materials for any combination.

> Shape: essential, universal, linear.

Plana's design stands out for its rigorously shaped corners and modest size. Solutions with a strong formal balance, ideal for those seeking a minimalist style.

> Harmony: coordinated, elegant, impeccable.

Delicate in white, elegant in glossy silver, the Plana keys are perfectly coordinated with any cover plate finish, perfectly meeting all installation requirements and adapting to various environments. Maximum functionality combined with a flawless appearance.

Plana white

Plana Silver

PLANA

RESISTANT, FUNCTIONAL AND MODERN MATERIALS.

The elegance of metal, the warmth of wood, the modernity of technopolymer and the freshness of Reflex: every interior has its own look, enhanced and emphasised by Plana. Above all through its materials, which give the lighting point the right weight and the most appropriate overtones. And with its colours, 37 variants to choose from: from classical black and white to natural maple and pear woods, from brilliant metallic green and blue to icy cedar and mint, the assortment is endless.

> Metal.

Aluminium.

Brushed aluminium for a natural effect that blends with the latest furnishing trends.

Metal.

Painted metal: an elegant and yet at the same time resistant material, in six colours with metallic or pearl finishes.

> Wood.

Natural wood.

A natural material which gives interiors a peerless warmth. For Plana it comes in three wood finishes, maple, pear and natural cherry.

> Reflex.

Reflex.

Fresh, modern and eclectic, this material gives a special icy effect to its twelve colour variations. Twelve shades, from the deepest, orange and emerald green, to the lightest, mint and amber.

> Technopolymer.

Technopolymer.

High performance with an essential appearance, this material comes in fifteen colour variants, one of which is antibacterial.

PLANA

MANY SURPRISING COLOURS.

Bold, pastel, brilliant, gloss, matt, metallic or natural. The wide and surprising colour range of the Plana cover plates truly has something for everyone - from those who love understated shades to those who prefer brighter colours - creating a natural habitat for everyone's tastes.

CONTROLS AND MONITORING DEVICES.

Vimar switch can meet any installation and aesthetic needs with its numerous types of control: rocker, axial, home automation, infra-red, touch and radio frequency. All with the technological precision that Vimar guarantees.

> Traditional controls.

There are many ways to activate a device: from axial to rocker technology, each featuring mechanical quality - precise and silent - that offers perfect operation over time. In addition, the ergonomics of the buttons accompanies and simplifies control gestures, while backlighting ensures that the associated functions are always legible and intuitive.

> Special controls.

A series of controls with specific, particular functions to cover all needs, in both homes and hotels.

> Electronic and home automation controls.

As well as conventional electromechanical controls, Arké offers devices incorporating state-of-the-art technologies, such as home automation controls, able to integrate in a home or building automation system to control lights and roller shutters, control electric loads or manage scenarios and events, or RF technology controls that do not require electrical power or batteries.

POWER AND DATA DISTRIBUTION DEVICES.

Vimar has a long history of ensuring safety where people and electricity live side by side. With meticulous attention to details, in accordance with high quality, safety and durability standards. The result is a large, versatile range of socket outlets for all installation needs, including power, multimedia and signal types.

> Power socket outlets.

All power socket outlets feature the Sicury safety shutter (Vimar patent), which prevents accidental contact with live parts. As well as ordinary socket outlets, available to the Italian standard and those of the main export markets, the range is completed by interlocked sockets for overload protection and USB ports for the swift charging of even large smartphones, mp3 players or tablets.

> Signal and multimedia socket outlets.

Plana enables the connection of electronic devices and the transmission of digital signals through copper or fibre-optic data sockets, telephone socket outlets, USB data ports and RCA and TV-RD-SAT sockets; they all guarantee fast, safe connections to a high quality standard.

HOME AUTOMATION

INNOVATIVE SOLUTIONS FOR
EFFECTIVE AND EFFICIENT HOME
MANAGEMENT.

Functions dialogue with each other comprehensively and continually, facilitating large as well as small daily actions and ensuring greater energy efficiency, security, comfort and control.

A modern office interior with glass walls, a desk, a chair, and a potted plant. The office is bright and clean, with a white desk and a black office chair. A large potted plant is in the foreground. The glass walls are reflective and show the office interior. The text is overlaid on a semi-transparent dark grey box.

OFFICE AUTOMATION

HIGH-PERFORMING AVANT-GARDE
SYSTEMS IN STEP WITH THE FUTURE.

Flexible, interoperable and modular, Well-contact Plus is the Vimar system developed on the KNX standard to allow complete building management. Whether in small or large structure, office, multi-purpose centres or even gyms, Well-contact Plus is the solution for control of the building and makes it possible to automate lighting, climate and other automations and to integrate with third-party systems.

SAFETY AND ENERGY SAVING DEVICES.

The Eikon range of products contains devices able to guarantee personal safety, prevent damage to home appliances and maintain the integrity of the rooms in your home. These properties are integrated with a range of innovative functions that allow you to optimise energy consumption while guaranteeing well-being and comfort.

> Safety devices.

High efficiency light sources optimised for different contexts of use. Automatic modular lights, step markers, warning lights and removable emergency torches that light up in the event of a blackout. Every device uses latest-generation LED specular transparent diffusers. Detectors that signal and cut off gas leaks. By-alarm intrusion detection alarm system that signals any break-in attempt. Elvox video door entry devices for creating versatile and high-performing video door entry systems. KNX standard transponder readers for access control in the various parts of the building.

> Devices for energy saving.

Top comfort and energy savings: this is possible, with Eikon. Universal dimmers regulate the intensity of LED and low consumption (CFL) lights to create the perfect atmosphere. Timer-thermostats and timer-switches are used to automatically or manually set the ideal temperature and other functions, to avoid waste. The Energy Guard function on Full Flat touch screens is used to monitor consumption of the whole home or a single load in real time. For greater energy awareness.

A modern hotel bedroom featuring a bed with white linens, a bedside lamp, and a large mirror. The room has a contemporary design with dark wood paneling and a large window with a view of the city.

HOTEL SOLUTIONS

ADVANCED, FLEXIBLE TECHNOLOGIES
FOR HOTEL SERVICES.

Our electrical systems ensure smart, optimised management of the hotel, regardless of its size. All installed devices are fully integrated with each other, ensuring maximum benefits for both guests and operators.

CUSTOMISATION.

Vimar cover plates can be customised with your logo by laser engraving, providing high-definition, indelible reproduction. The same technology can also be used to customise the controls only, reproducing any symbol on the buttons.

A vast library of pictograms is available, identifying the main functions of both conventional and home automation controls.

> Customised buttons.

To clearly identify the function associated to the control, buttons are laser screen printed with symbols chosen from our customisation library or supplied by the customer.

Otherwise it can be customised with Mylar labels bearing some standard symbols.

> Cover plate customisation.

Arké cover plates can be customised with your logo. This solution is recommended in particular in the service sector. In addition to the standard colours there is also a wide range of colours to further customise the cover plate. Our sales staff are at your disposal to illustrate this feature in detail.

Corporate logo customisation example.

Example of personalisation with function symbols.

FLEXIBLE INSTALLATION.

There are really countless installation solutions: devices can be flush mounted on masonry or plasterboard walls by means of special boxes, in airtight surface mounting enclosures for applications requiring a high degree of protection, or in table mounting boxes to have controls and sockets directly available in the workstation.

VIEW: VIMAR ENERGY on WEB.

Smart products and interconnected systems.

What is VIEW? VIEW is a range of stylistically matching smart products and interconnected systems that are also compatible with other manufacturers' products, all conceived with the aim of increasing simplicity for users and offering them an intuitive experience, working towards total control of their homes and a smart lifestyle.

In line with this premise, VIEW is Vimar's vision of the digital world and of the Internet of Things, which forms the guiding principle for the ongoing development of smart solutions, all connected to each other, to the Internet and to the user by means of state-of-the-art digital technologies. VIEW looks to the future, today.

Full control via APP.

All you need is your smartphone to manage and supervise your home and the objects in it, easily and instantly.
